YOUR SUMMER PROGRAMME

A group of four young adults (two men and two women) are smiling and posing for a photo outdoors. They are dressed in casual summer attire, including denim jackets and t-shirts. The background is a bright, slightly blurred outdoor setting, possibly a beach or a park. The overall mood is cheerful and relaxed.

Our carefully chosen campuses offer a choice of residential and homestay options, in Dublin and across Ireland.

Our modern university campuses offer single and twin ensuite accommodation.

Our boarding school campuses are designed for younger students, offering multi-bedded rooms with shared bathrooms.

Host family accommodation can also be offered at selected centres, staying with a carefully chosen family on a full board basis. Students from groups will stay 2 students per family.

With our wide selection and variety of campuses and programmes, please contact us for your best option.

At ATC we believe that learning English should be fun; therefore all of our courses are designed to combine effective language learning with a busy activity programme in a fun environment.

All of our university campus programmes include **ATC On Campus Projects**, designed to encourage creativity while practising spoken interaction. Activities include Photography, Vlogging and Gamezone.

All programmes include

Comprehensive social and cultural activity programme

Onsite sports and group activities

Half-day excursions exploring the surrounding area

1 full-day trip each week discovering Ireland

Evening activity programme

SUMMER ACADEMIC PROGRAMME

ATC's Summer Academic Programme aims to engage and motivate young learners through active and interesting lessons, encouraging maximum communication between students and helping them grow in confidence while learning English.

The curriculum is designed against the CEFR and all levels are offered, A1-C1.

The syllabus operates on a 4 weekly basis and has been developed with active learning and the students' experience in mind.

Our timetable is planned so that there are 2 lessons per day, over 5 days per week, with alternating morning and afternoon classes.

My Learning Journal:

This workbook provides tasks and research activities based on each tour the students can expect to go on.

It also includes a Learning Diary for students to make notes, record new words and phrases, and reflect on what they learn and experience each day.

ATC Online:

This platform allows students to view their learning outcomes and main task for each lesson. They can also use it to learn about their tours. Access is given to the student and parent for their course and also for 12 weeks after their stay with ATC.

World of Work:

This aims to prepare students for life with skills such as writing their CV, giving presentations, communication in the workplace and creating online content.

The sessions are a combination of lectures and interactive workshops, providing students with the language they need to prepare for working life.
